## System Requirements:

Ports for the Steam Controller The Steam Controller requires a 3.5mm stereo audio jack (female, gold-plated) on each end of the cable. Audio from the Steam Controller must be routed through a 3.5mm stereo audio jack (female, gold-plated) on each end of the cable. Also, the Steam Controller requires a USB connection to a computer or other device. For best performance, use a USB connection that provides power to the controller, rather than a standard USB connection. You can find these at most computers
